THE ART OF DECORATING GLASS

1984

"In the early days of our dreams, born in the first half of the 80s, we began to adorn the gift of nature, glass, with dreams to make it even more special. Derived from the Beykoz tradition, Decorium aimed to pursue a tradition in the world of craft glass and decor. Motifs inspired by the civilization from our lands, floral interpretations, geometric lines, all come to life on the enchantment of transparency through skilled hands and engineering. Engraving, cutting, blowing, and many other unique local techniques brought to the present by Decorium, highlight the gift as an expression of beautiful emotions and memories.

Decorium objects, produced in very limited numbers, are passed down from generation to generation. We carry the inspirations from our lands to modern life and distant realms. Embracing both the future and the past, Decorium Culture redefines hospitality by adding elegance to the culture of presentation that appeals to every taste and language."

MASTERFUL PRAISE *Selimiye*

The Selimiye Mosque, which has left its mark on the history of Turkish architecture and encompasses the most valuable period of Tile art, is an exquisitely adorned masterpiece. Built in the 16th century, the Selimiye Mosque stands out as a work that fundamentally changed the course of architectural and engineering history. It has gained a unique character through the skillful combination of marble, wood, and tile materials. Commissioned by Sultan Selim II, this magnificent structure continues to receive praise for its tiles that have reached us with inspiration from the depths of history.

TIMELESS BLUE & WHITE *Mahza*

The Saz Style, one of the most characteristic examples of Turkish and Ottoman Tile Art, takes its name from its use in the circumcision ceremony of Sultan Ahmed III's princes. This unique style is most prominently showcased in the cobalt and white decorations of the Circumcision Pavilion.

Elements such as 24-carat gold, hand decoration, and engraved glass technique constitute the aesthetics of the Circumcision Pavilion. These details, reflecting a taste beyond time, expand the boundaries of art. This tile-inspired masterpiece, used on the special day of Sultan Ahmed III's princes, presents a visual and historical celebration.

LETTER TO TODAY
Asaf

A secret that has been lettered from Topkapı's ancient settlement to the present...

The Takkeci İbrahim Çavuş Ağa Mosque, built in 1592, adapts its talismanic künde-kari decorations and floral ornaments, representing the finest examples of 16th-century Turkish Tile Art, to the present day. The production of hand-decorated and engraved glass, embellished with 24-carat gold, becomes Asaf's interpretation of yesterday, today, and tomorrow.

Selçuklu

Enchanting patterns that extend from Asian geometry to Anatolian history. For yesterday, today, and tomorrow...

A GIFT FOR ALL TIMES...
Triangle & Patch

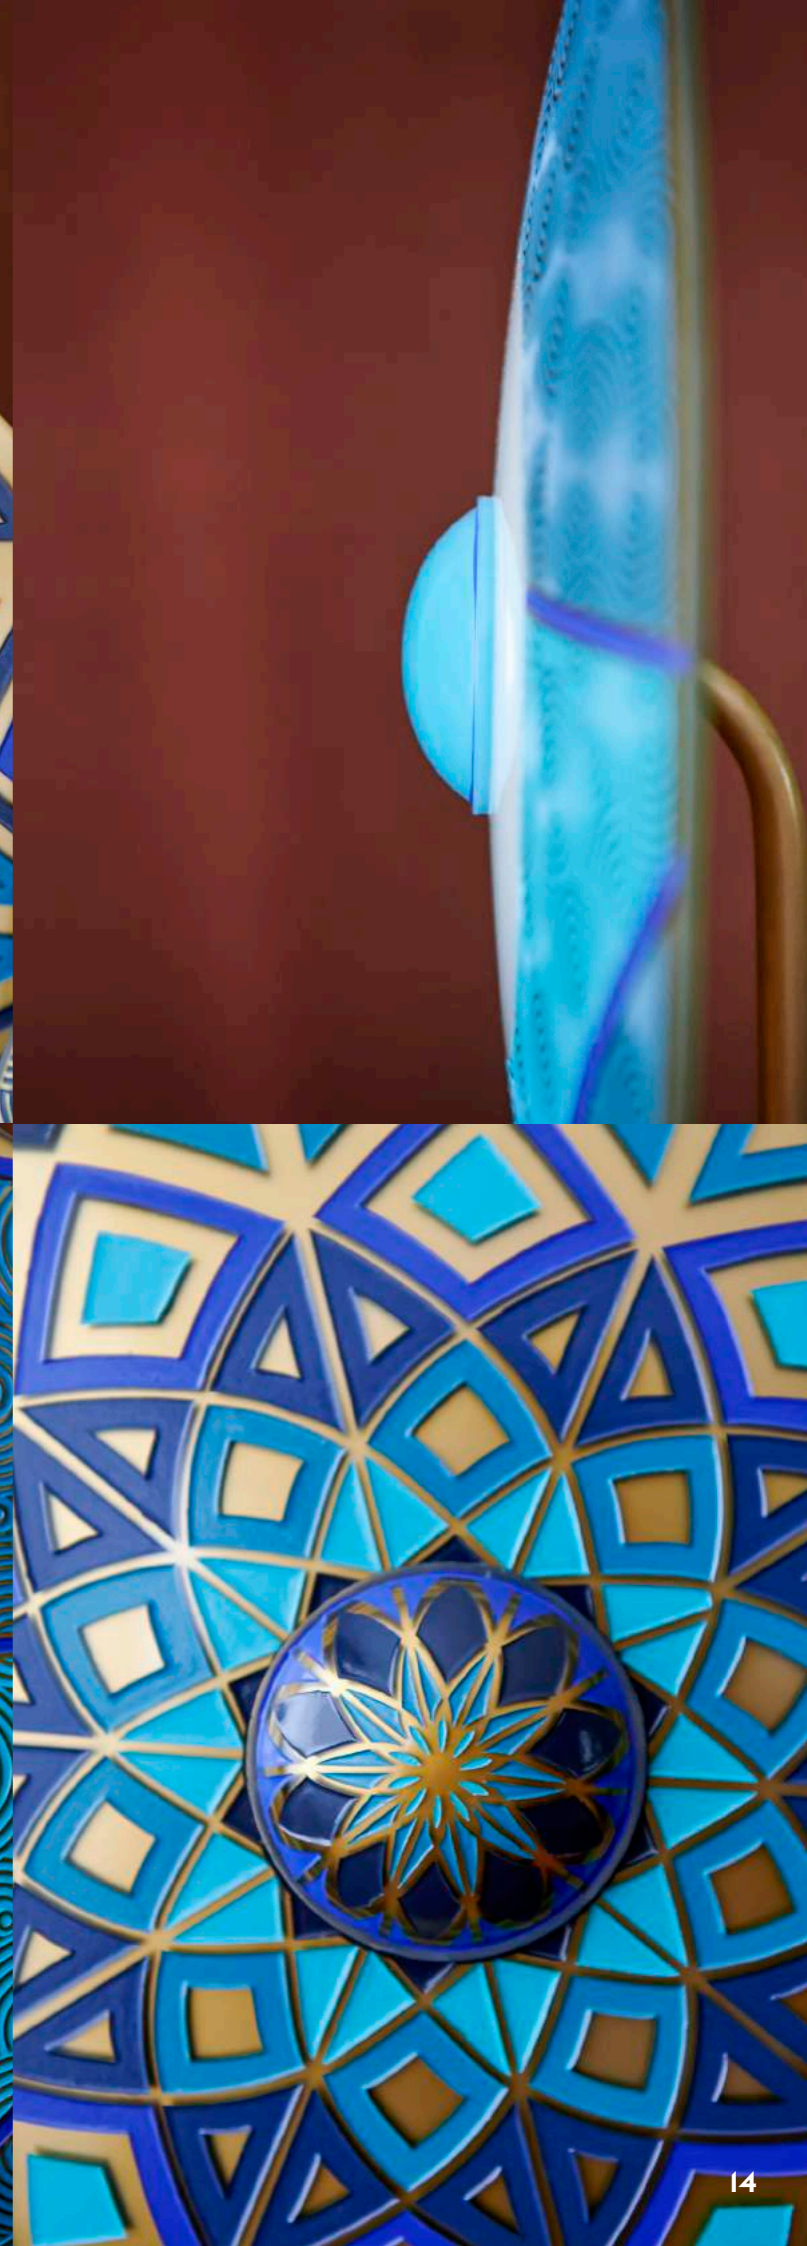

The decorative signature of Seljuk and Ottoman architecture, Kündekari glass engraving, is revived. From Turkish blue to the deepest azure, the blue decorative world blends with Triangle and Patch, offering a modern interpretation of Mediterranean style.

CHARMS OF THE EAST *Triangle ve Patch*

For centuries, the wishes and enchantments of these lands have been memorialized with symbols. The evil eye bead, Şahmeran, and a myriad of hidden motifs and myths, objects adorned with stories and legends, inspire the Decorium design world with their charms.

Cordelia

The elegance of the Eastern Roman Empire, the sparkle of fibulas, and the grace of golden treasures shine in the secret treasures of Constantinople, reminiscent of Cordelia as well...

Sahip Ata

Built in the 13th century, Sahip Ata stands as one of the first examples of complex structures known as külliye. Preserving the meaningful motifs of the Seljuk era, it revives geometry, Turkish blue, and patterns filled with hundreds of secrets in the hands of Decorium designers. Timed from 700 years ago to the present and into the future.

Sülün

The mythical bird of Asia carries enchantments from epics to the present day. The pheasant, with its free wing flaps, brings harmony to Asian civilizations as a symbol of luck and aesthetics.

Ahzar

Interpreted with the spirit and color palette of the 15th-century Green Mosque, an monumental design that changed the entire silhouette of the city. A very special piece that stands out with its form, hiding meanings, harmonizes with the different methods of Decorium artists.

Valide

Dated to the 19th century, the Pertevniyal Valide Sultan Mosque's traveler's delights are embodied in the signature style of Decorium. The dome of the structure, inviting daylight, is scaled with form and transparency. Imaginary enchanted patterns rise upon a marble pedestal.

Motifs inspired by the civilization from our lands, floral interpretations, geometric lines, all come to life on the enchantment of transparency through skilled hands and engineering.
